

AVAILABLE SIMULATED PATIENT ENCOUNTERS FOR NURSING

HEALTH ASSESSMENT (5):

- Community Newborn Checkup
- Contraception Initiation
- Domestic Violence
- Nursing Admission
- Postoperative Respiratory Distress

FUNDAMENTALS (13):

- C Diff Care
- Cellulitis Management
- Colostomy Care & Teaching
- Confusion in Older Adult with Infection
- Diabetic Wound Care & Insulin Administration
- End-of-Life Care
- Fall & Pressure Ulcer Risk Assessment
- Fluid & Electrolyte Management in Pregnant Patient
- Mobility & Elimination
- Oxygenation & Hygiene
- Postoperative Assessment & Surgical Site Care
- Postoperative Pain Management
- Tracheostomy Care

MENTAL HEALTH (14):

- Anxiety/Stress Management
- Bipolar Disorder/Mania
- Dementia
- Depression
- Drug Abuse
- Obsessive Compulsive Disorder
- Older Adult Abuse
- Personality Disorder
- Postpartum Depression
- Post-traumatic Stress Disorder
- Schizophrenia/Psychosis
- Suicidal Risk Assessment
- Violent Adolescent Drug Abuse
- Vulnerable Populations: HIV Positive Patient

MATERNITY (27):

- Birth Plan, Group B Beta Streptococcus Positive
- Fetal Demise, Induction
- Fetal Distress, Meconium
- Fetal Distress, Post-Term Birth
- Fetal Distress Requiring Medical Induction
- Gestational Diabetes
- High-Risk OB, Shoulder Dystocia
- Hyperemesis Gravidarum
- Insulin-Dependent Gestational Diabetes with Preterm Labor
- Intimate Partner Violence
- Intrapartum Infection
- Late Pregnancy Bleeding, Placenta Previa
- Neonatal Resuscitation, Cardiac Anomaly
- Neonatal Resuscitation, Narcotic
- Newborn Care
- Precipitous Labor & Neonatal Resuscitation
- Preeclampsia, Clinic to Hospital
- Preeclampsia, HELLP Syndrome
- Preeclampsia in the Emergency Department
- Preeclamptic Seizure
- Postpartum Hemorrhage
- Postpartum Hemorrhage
- Postpartum Hemorrhage, Placenta Increta
- Postpartum Hemorrhage, Uterine Atony
- Postpartum Hemorrhage, Vaginal Hematoma
- Scheduled Cesarean Delivery
- Shoulder Dystocia, Neonatal Resuscitation

LEADERSHIP (6):

- Aggressive Behavior Management for Dementia Patient
- Goals of Care Discussion
- Managing Care of Multiple Patients
- Medication Error with Root Cause Analysis
- Prioritization of Multiple Patients
- Rapid Response

MEDICAL SURGICAL (33):

- Abdominal Surgery & Patient Controlled Analgesia
- Abdominal Surgery & Postoperative Fluid Volume Deficit
- Aggressive Behavior Management for Dementia Patient
- Acute Renal Failure & Hyperkalemia
- Asthma Exacerbation & Anxiety, Communication & Oxygen Delivery
- Bronchiolitis, PALS
- Care for C Diff Patient
- Cellulitis and PICC line Care
- Colostomy & Hyperkalemia Secondary to Medication Error
- Cumulative Complex Patient
- Diabetes & Severe Acute Hypoglycemia
- Elderly Man with Pneumonia
- Fall in the Hospital
- Gastrointestinal Bleed
- Heart Failure, Digoxin Toxicity & Hypokalemia
- Hemothorax with Chest Tube & Drug Overdose
- Hip Fracture and Blood Transfusion
- Hip Fracture & Pulmonary Embolism
- Hip Fracture, Wound Infection & Early Sepsis
- Hypoglycemia
- Lung Cancer, Nausea & Hypokalemia
- Lung Cancer & Acute Tension Pneumothorax
- Mobility & Elimination
- Myocardial Infarction & Management of Unstable Patient
- Pancreatitis with Alcohol Withdrawal
- Pediatric Patient admitted for Chest Pain
- Pneumonia with Acute Respiratory Distress & Oxygen Delivery
- Prioritization of Multiple Patients
- Seizure EMU Case
- Sepsis Care
- Spinal Cord Injury & Postoperative Atelectasis
- Urinary Tract Infection & Anaphylactic Reaction
- Wound Debridement & Pain Management

ACUTE/CRITICAL CARE (22):

- Bronchiolitis
- BTT Shunt Occlusion
- Cellulitis and PICC line Care Skills
- Chest Pain: ACS
- Coarctation of the Aorta
- Desaturation & Bradycardia
- Epileptic Seizure (Head Bleed)
- Gastrostomy Tube Management
- Hypotension Post TAA
- Intubation of Suspected COVID Patient
- Low Cardiac Output Syndrome
- Pediatric Patient Admitted with Chest Pain
- Post-Op SVT
- Post-Op Hypoxia and Hypotension
- Postpartum Hemorrhage
- Severe Trauma
- Tetralogy of Fallot with Hypercyanotic Spell
- Tracheostomy Care
- Tracheostomy Care: Sputum Culture Collection
- Tracheostomy Complications: Cuff Leak
- Tracheostomy Complications: Displacement
- Tracheostomy Complications: Occluded Inner Cannula (Fresh Tracheostomy)

PEDIATRICS (36):

- Acute Appendicitis, Postoperative
- Acute Appendicitis, Preoperative
- Acute Asthma, Management of Impaired Gas Exchange
- Acute Lymphoblastic Leukemia, Platelet Transfusion
- Bronchiolitis, Management of Respiratory Distress
- Bronchiolitis, PALS
- BTT Shunt Occlusion
- Cerebral Palsy, Gastrostomy Tube Management
- Cerebral Palsy, Tracheostomy Care/Sputum Culture
- Closed Head Injury, Seizure Management
- Coarctation of the Aorta
- Community Newborn Checkup
- Compound Fracture, Varicella Management
- Congestive Heart Failure, Acute Hypokalemia Management
- Cystic Fibrosis, Management of Respiratory Arrest
- Dehydration, Specimen Collection
- Desaturation & Bradycardia
- Diabetes Mellitus, Hyperglycemia Management
- Gunshot Wound, Management of Hypovolemic Shock
- Hirschsprung's Disease, Ostomy Care
- Intubation of Suspected COVID Patient
- Low Cardiac Output Syndrome
- Nasogastric Tube Replacement, Medication Administration
- Neonatal Abstinence Syndrome
- Partial-Thickness Burns, Sterile Dressing Change
- Possible Bacterial Meningitis, Medication Error Prevention
- Pediatric Asthma Exacerbation
- Pediatric Patient admitted for Chest Pain
- Pediatric Tonsil and Adenoid
- Post-Op: Hypoxia & Hypotension
- Post-Op SVT
- Precipitous Labor & Neonatal Resuscitation
- Sick Cell Anemia, Management of Sick Cell Crisis
- Tetralogy of Fallot with Hypercyanotic Spell
- Urinary Tract Infection, Anaphylactic Reaction
- Violent Adolescent Drug Abuse

COMMUNITY HEALTH (18):

- Community Health: Bioterrorism, Patient Zero
- Community Health: Multiple Casualty Incident
- Community Health Nurse Experience
- Community Newborn Checkup
- Home Health: COPD/Pneumonia
- Home Health: COVID
- Home Health: Heart Failure
- Home Health: Hospice
- Pediatric Asthma Exacerbation
- Postpartum Depression
- Public Health: STI
- Occupational Health: Stroke/MI Assessment
- Occupational Health: Workplace Injury
- School Health: Asthma Exacerbation
- School Health: Diabetic
- Violent Adolescent Drug Abuse
- Vulnerable Populations: Migrant Farm Worker with Tuberculosis
- Vulnerable Populations: HIV Positive Patient

NON-ACUTE CARE (11):

- Community Health Nurse Experience
- Home Health COVID
- Occupational Health: Stroke/MI Assessment
- Occupational Health: Workplace Injury
- Pediatric Asthma Exacerbation
- Postpartum Depression
- Preeclampsia
- Primary Care Myocardial Infarction
- Primary Care UTI/BPH
- Vulnerable Populations: HIV Positive Patient
- Vulnerable Populations: Migrant Farm Worker with Tuberculosis

GERIATRICS (21):

- Acute Renal Failure
- Aggressive Behavior Management for Dementia Patient
- C Diff Care
- Community Health Nurse Experience
- Confusion in Older Adult with Infection
- Elderly Man with Pneumonia
- Fall and Pressure Ulcer Risk Assessment
- Fall in the Hospital
- Goals of Care Discussion
- Hip Fracture & Blood Transfusion
- Hip Fracture & Pulmonary Embolism
- Hip Fracture, Wound Infection & Early Sepsis
- Lung Cancer, Nausea and Hypokalemia
- Mobility & Elimination
- Sepsis
- Sepsis Care
- Tracheostomy Care
- Tracheostomy Care: Sputum Culture Collection
- Tracheostomy Complications: Occluded Inner Cannula (Fresh Tracheostomy)
- Tracheostomy Complications: Cuff Leak
- Tracheostomy Complications: Displacement

SURGICAL (17):

- Acute Appendicitis, Preoperative Care
- Acute Appendicitis, Postoperative Care
- Anesthesia
- BTT Shunt Occlusion
- Fluid Volume Deficit, Postoperative Care
- Hip Fracture & Blood Transfusion
- Hip Fracture & Pulmonary Embolism
- Hip Fracture, Wound Infection & Early Sepsis
- Laparoscopic Sigmoid Colon Resection, Postoperative Care
- Mobility & Elimination
- Ostomy Care
- Postoperative Respiratory Distress
- Right Hip Arthroplasty, Postoperative Care
- Right Lung Lobectomy, Postoperative Care
- Ruptured Appendix, Postoperative Assessment & Care
- Spinal Cord Injury
- Wound Debridement

CODE TRAINING (10):

- ACLS Knowledge Update
- Bronchiolitis, PALS
- Chest Pain: ACS
- Chest Pain in the ED, ACLS
- Climbing Accident & Rescue
- Motor Vehicle Trauma
- Pediatric Dysrhythmia, PALS
- Precipitous Labor & Neonatal Resuscitation
- Sepsis
- Severe Trauma

MULTIPLE PATIENTS/MASS CASUALTY (5):

- Bleeding Control: Office Shooting
- Managing Care of Multiple Patients
- Mass Casualty Incident
- Multiple Patients Prioritization
- Triage Mass Casualty
